

The specification has been amended to incorporate the sequence identifiers in accordance with 37 C.F.R. § 1.821(d). Also, a minor typographical error in the designation of the "5'" end of the reverse strand of the oligonucleotide designated as SEQ ID NO:32 (at page 37, line 36) has been corrected. These amendments do not introduce new matter.

Applicants respectfully request entry of the above-made amendments, the accompanying Sequence Listing, and the foregoing remarks into the file of the instant application prior to examination thereof.

Respectfully submitted,

Date: November 17, 2000
